when does a fetus become sentient is it yahoo answers

May 29th, 2020 - science attests that every single living cell is a sentient entity that is completely false and patently ridiculous as for the main question you'll have to carefully define sentient first then we can use evidence to show a range of times during embryonic development when sentience probably occurs"**it must be the vapors ideas are embryos**

May 17th, 2020 - now enters richard grossinger into my life with his book embryos galaxies and sentient beings how the universe makes life needless to say he goes a little deeper than the recent sixteen thousand years of human history not to mention the six thousand year old earth down to which the original much older lie about a creator has been refined'
