medieval falchion medieval britain

*May 25th, 2020 - the medieval falchion
had a curve one edged blade while the*

european version had a short back edge
it was 37 to 40 inches in length and
weighted about 1 to 2 pounds falchions
almost always included a single edge
with a slight curve on the blade towards
the point on the end and most were also
affixed with a quilloned crossguard for
the hilt in similar to that of the
arming swords''
